PROFESSIONAL SUMMARY

Frontend Developer with experience in Backend Development, specializing in creating dynamic and interactive applications using modern technologies such as Vue.js, Next.js, Laravel, and NestJS. Advanced proficiency in Git and GitHub, applying branching workflows (Git Flow, GitHub Flow), pull requests, code reviews, and CI/CD integration. Passionate about continuous learning and problem-solving, with strong adaptability to new technologies and experience working in agile teams.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Bootstrap, JavaScript, jQuery, Vue.js, Next.js
- **Backend:** PHP, Laravel, NestJS, Java
- **Databases:** Oracle, PostgreSQL
- **Version Control:** Git & GitHub (branching workflows, pull requests, code reviews, CI/CD integration)
- **Agile Methodologies:** Scrum, Kanban
- **UX/UI Design:** Figma, UX/UI Principles

WORK EXPERIENCE

Software Developer (Internship)

IVI SpA, Santiago, Chile | Nov 2023 – Feb 2024

- Developed an **order and product unifier** with **Next.js** for centralized management across multiple marketplaces.
- Implemented **Git & GitHub**, utilizing branching workflows, pull requests, and code reviews.
- Applied **agile methodologies (Kanban)** for development management and workflow optimization.
